Portfolio: nathanpham.netlify.app

CAREER OBJECTIVES

My goal is to build a strong foundation as a Full-Stack Developer, applying my skills in real-world industry projects. In the long term, I aim to advance into Backend Development and ultimately grow into a Solution Architect role, designing scalable systems and leading technical strategy for complex applications.

WORKS/PERSONAL PROJECTS

BLOG PLATFORM API (ON WORKING)

github.com/NgocPMT/blog-app

Typescript, ExpressJS, Prisma, Supabase, PostgreSQL

- Implemented secure login and registration using JWT tokens and password hashing.
- Structured endpoints following REST standards for scalability and clarity.
- Used express-validator for input validation and error responses.
- Configured environment variables and server scripts for deployment using Render and Supabase.

DEMI NGUYEN'S PORTFOLIO

demi-nguyen.netlify.app

Javascript, ReactJS, Vanilla CSS, Youtube Player API

- Developed a responsive and interactive UI to showcase the client's creative works and personal brand.
- Used Vanilla CSS for a pixel-right UI
- Integrated the YouTube Player API to embed and control video playback dynamically, allowing visitors to view the client's video through a creative UI.

MINIMAL SHOPEE CLONE

ngocpmt-shopeefy.netlify.app

Typescript, ReactJS, React Router, TailwindCSS, FakeStore API

- Designed and developed a sleek, responsive UI with custom skeleton loaders, breadcrumbs, toasts, and modals using Tailwind CSS.
- Integrated the FakeStore API to fetch product data while efficiently managing loading states, race conditions, and errors.
- Implemented real-time updates using optimized state and context management for a seamless user experience.

EDUCATION

Bachelor of Software Engineering

2023 - Present

FPT University, Can Tho

- Relevant Courses: Data Structures, Web Dev, Databases, Software Engineering

SKILLS

Languages	Javascript, Typescript
Tools/Frameworks	ReactJS, ExpressJS, Prisma, Supabase, Vanilla CSS/TailwindCSS, Postman
Databases	PostgreSQL
Other Skills	Agile Methodologies, Problem-solving, Strong Communication, Time Management

CERTIFICATES

Web Design for Everybody: Basics of Web Development & Coding

Jan 2025

University of Michigan

Software Development Lifecycle

May 2025

University of Minnesota
